FRUITS

## ABOUT US

Located among an expansive green plateau, the Ea Kar land in Dak Lak province has long been renowned for its coffee and pepper plantations. Nevertheless, due to the challenging markets and the impacts of climate change, the region now has to face unprecedented challenges. Yet, among those difficulties, fruit trees emerge as a promising opportunity with both economic potential and resilience against climate change. Darlac Farms has wholeheartedly embraced this innovative and enthusiastic endeavor as its path to development.

Darlac Farms, with an exhilarating name, is an agricultural product brand from the Ea Kar region in Dak Lak Province. The initial steps of this brand were driven by a profound love for the homeland and the belief in the land's inherent potential. The dedicated and enthusiastic founding members, combined with their passion for Vietnamese agricultural products, resulted in exceptionally high-quality offerings.

In addition to establishing a sustainable domestic agricultural industry, Darlac Farms aspires to broaden its horizons and venture into the international market. We firmly believe that our distinctive, high-quality agricultural products, cultivated with love for our homeland, will captivate not only domestic consumers but also those from around the world.

## MESSAGE FROM THE DIRECTOR GENERAL

Darlac Farms is not merely an agricultural product brand but also embraces a mission of forming connections with farmers and the land. We commit to cultivating a sustainable future for Vietnamese agricultural products while creating global connections based on quality and passion. Together with Darlac Farms, let's embark on a promising journey of Central Highlands agricultural products - A green and prosperous future.

**Le Tai**  
Director

### QUALITY

Quality is the utmost important value that Darlac Farms prioritizes. All of our products are held to the most rigorous quality standards, ensuring their nutritional value while maintaining the natural taste.

### SAFETY

Health is the top concern. Every product of the Darlac Farms guarantees not only absolute safety but also strives to offer health benefits. Our production process undergoes rigorous monitoring, starting from the planting stage till the product reaches the customers.

### RESPONSIBILITY

We take responsibility for our products and actions, not only for our business operations but also for our customers, partners, suppliers, and staff.

### PRESTIGE

Prestige serves as the basis for building trusting relationships with both customers and the community. At Darlac Farms, we are committed to maintaining and enhancing our corporate prestige to drive our sustainable development and market expansion.

### VISION

Darlac Farms aims to become a trusted partner in the agricultural and food sector, contributing to the sustainable development of the Central Highlands region and fostering a community that values and embraces qualities such as excellence, safety, and social responsibility.

### MISSION

To ensure customer satisfaction by delivering the utmost quality in our products and services. Simultaneously, we commit to supporting farmers in the Central Highlands region, assisting them in achieving prosperity on their land, and engaging in sustainable and socially responsible development activities.

# FREEZE DRIED FRUITS

Freeze drying is a technique also known as "freeze drying" or dehydration technique, often used for preservation and transportation while still ensuring the original product quality. Darlac Farms is proud to be one of the few factories in Vietnam that owns this high-end food drying technology.

- ◆ Maintain The Original Shape And Structure Of The Product
- ◆ Maintain Of The Best Color, Nutritional Value And Flavor
- ◆ No Oil Frying, Safe For Health
- ◆ Drying A Variety Of Products With High Quality Standards

## FACTORY

---

Darlac Farms has invested in a factory system with a floor area of approximately 53,000 square meters, located in the center of a vast raw materials area. This enables us to select the highest quality fruits while meeting high technical specifications and rigorous international standards.

## LOGISTICS SYSTEM

---

To ensure optimal preservation of product quality, we have implemented a cold storage system spanning over 1,200 m<sup>2</sup>, together with a refrigerated transportation fleet for delivery, whose temperature is closely monitored using thermometers.

Most importantly, our quality assurance (QA) team, comprising highly trained professionals with extensive industry experience, oversees the quality of both exported goods and inventory items on a daily basis.

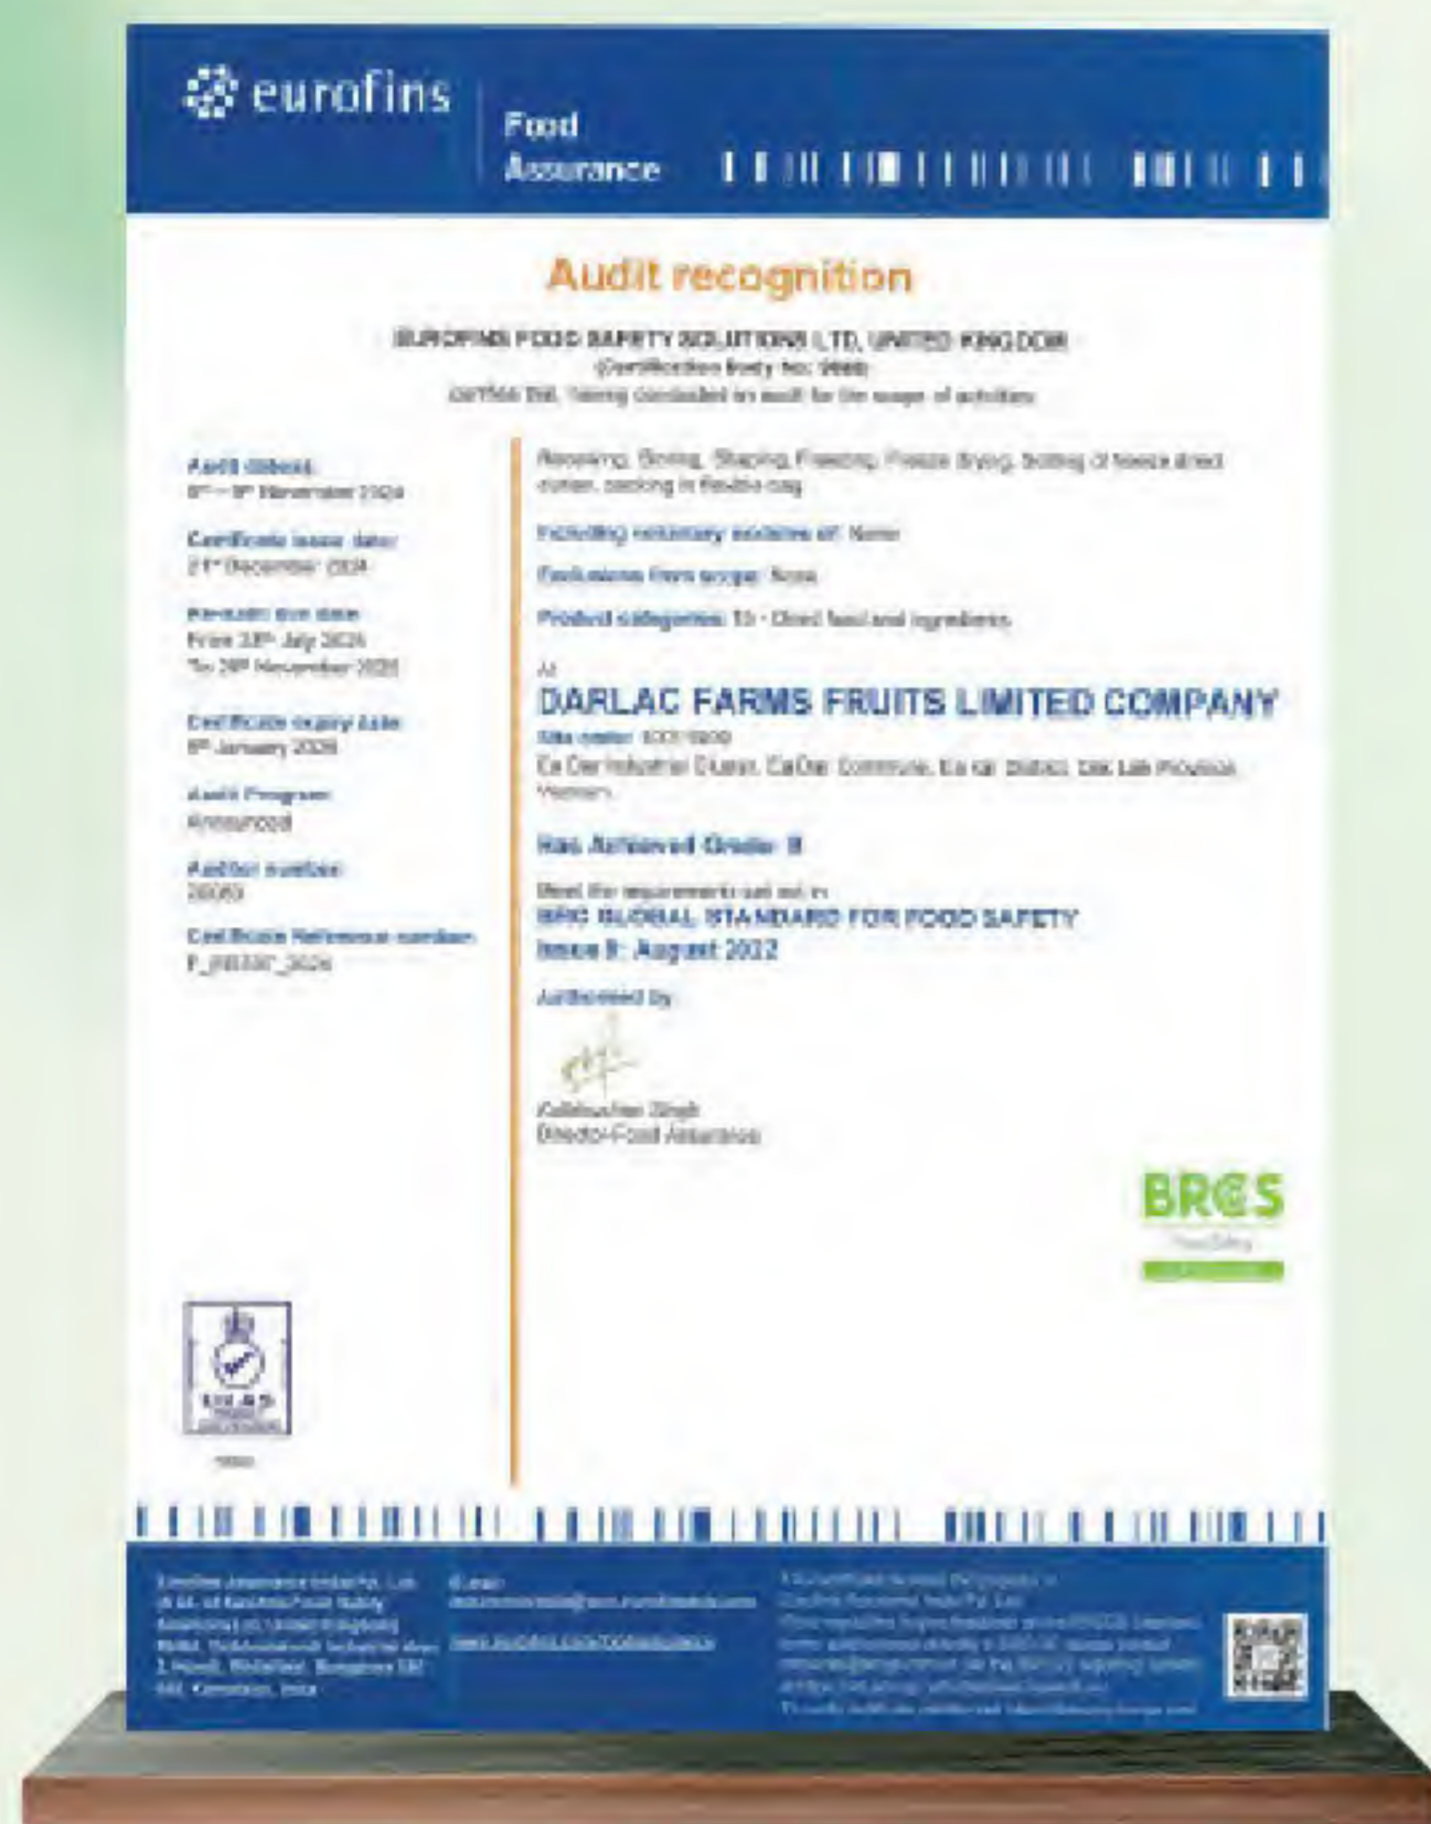

## PRODUCT LIABILITY

The products produced by Darlac Farms represent the most tangible value we provide to our customers, serving as the link that connects us with our stakeholders. Throughout our operations, Darlac Farms has been consistent in our commitment to creating safe, nutritious products that prioritize human health.

# CERTIFICATES

# MARKETS

Darlac Farms has been expanding in the domestic market while continuously striving to expand exports to international markets such as China, Korea, the US, the Middle East, and many other countries. In more than 10 years of operation, Darlac Farms has established its reputation and gained trust and appreciation from both domestic and international partners, customers, and distributors.
