About Us

SAN AGRO INVESTMENT CO., LTD is a Vietnamese supplier and exporter of white cashew kernels, raw cashew nuts and finished cashew products.

Representing the leading criteria of quality, service and innovation, we work with experienced processing partners and abundant raw material sources to deliver professional, fast and timely service at competitive prices.

Every batch is strictly inspected – from the purchasing of inputs to the finished product – under a rigorous quality management system using non-chemical sterilization methods, providing clean and safe food to consumers.

Please contact us for more information and a precise, fast quotation for your preferred products.

What We Do

01

Sourcing

Directly sourcing raw cashew from Vietnam, Indonesia, Ghana, Tanzania and Cambodia – selected and inspected at origin.

02

Processing & packing on demand

Classifying, vacuuming and packing to customer specification, with non-chemical sterilization and full inspection at every stage.

03

Export

Exporting WW-grade cashew kernels to the US, Japan, China, Thailand, the EU and the Middle East.

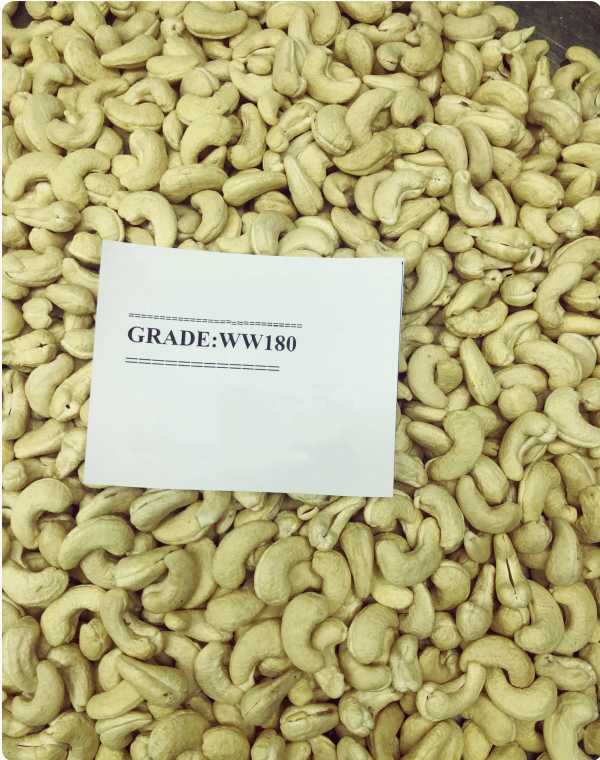

Product Range

All grades are supplied to AFI standard. Moisture max 4.5%, broken max 5%, lower size grade max 10% and total defects max 8% – or as per customer’s request. Origin: Vietnam.

GRADE	KERNELS / LB	DESCRIPTION
WW180	175 – 180	White whole – the largest, premium kernel
WW210	205 – 210	White whole – jumbo kernel
WW240	230 – 240	White whole – large kernel, most popular for retail
WW320	310 – 320	White whole – the standard, best-selling grade
WW450	430 – 450	White whole – smaller kernel, economical choice
WS	–	White splits – halved kernels for baking & confectionery
LP	–	Large pieces – broken kernels, large size
SP	–	Small pieces – for food processing & ingredients

Why Choose Us?

Quality standards

The cashew export industry is highly regulated. Every shipment adheres to strict AFI quality standards – free from contaminants, consistent to specification.

Clean & safe processing

Non-chemical sterilization and full inspection from raw input to finished product provide clean, safe food to consumers.

Competitive prices

Direct sourcing and efficient processing let us offer the finest quality at the best price. Just ask for a quote.

Stable quality, every batch

Modern classifying, drying and extraction lines plus carefully selected raw material keep quality uniform from container to container.

Timely delivery

We supply customized quality, size, packing and grading per your requirements – loaded and shipped on schedule.
